"BOTTOM DROPPING OUT OF ROOSEVELT'S BAND WAGON"

CONVENTION RESURNS TO, 12 FRIDAY

Convention Hall, Chicago, Ill., June 20.—The convention met at 4 o'clock and adjourned again until 12 Friday to give committees time.

(Continued from page one)

ing the colonel and declaring they would stand by him to the end and go with him into any action he might recommend.

"It was said that 314 delegates had 'signed up' to go out of the convention."

Others were inclined to doubt that the course of the former president had made it easy for them to remain in the convention as "regulars" with an opportunity to vote for a third party candidate if they chose. The third or compromise candidates talk was second in point of interest to the exciting developments in the Roosevelt ranks, though the staunch Taft leaders declare there would be no compromise candidate.

Roosevelt Holds Delegates.

Col. Roosevelt arranged for a private conference with his leaders to be held immediately after luncheon.

It was nearly a o'clock before Col. Roosevelt entered the Roosevelt room to conduct an executive session of delegates pledged to his candidacy. All outsiders were excluded.

"The statement that Roosevelt had released his delegates is untrue," said senator Dixon. "No such action has been taken. Roosevelt could not release the delegates from the states in which direct primaries have been held if he wanted to."

Ex-governor Post, who was responsible for the original statement that the delegates had been released, said later in the day that he had been mistaken.

La Follette's Cousin Acting.

H. M. La Follette, of Tennessee, a cousin of senator La Follette, of Wisconsin, held a conference with William Barnes, of New York, in the latter's room today. It was said that La Follette bore a message from the Wisconsin leader regarding the La Follette instructions to the delegates. The details of the conference were not disclosed.

Senator Kenyon this afternoon issued a statement, saying:

"The situation today is greatly in favor of senator Cummins' candidacy. He offers the ideal compromise in the present crisis. His ability and fitness for chief executive are admitted by the leaders of all factions at Washington, and he is the least objectionable to either extreme of the party in this convention."

"The situation today demands a calm counsel for the success of the party in the states and in the districts as well as in the nation."

Iowa's 18 delegates who are pledged to senator A. B. Cummins will not bolt the convention, according to senator V. S. Kenyon, of Iowa, campaign manager for Cummins.

Senator Kenyon said: "This talk about bolting ought to be set down on the two factions fight it out in the convention."

"As for our candidate we have not a fighting chance, but we have a good compromise chance. Everything depends upon a deadlock which we believe will come."

Penrose With Taft.

"We will stay with president Taft."

THREE DRAFTS OF PLATFORM

MAN BUYS THREE BOULEVARD HOMES

Roosevelt, Taft and LaFollette Send Text of Principles to Committee.

Chicago, Ill., June 20.—The subcommittee of the committee on resolutions met early today and resumed its work on the shaping of the platform as if nothing had happened.

There was a noticeable absence of progressives. Of the three Roosevelt members of the subcommittee, not one was present, and it was not expected that any of them except governor Hadley, of Missouri, would be in attendance. Both Mr. Rowley, of California, and Mr. Lewis, of Pennsylvania, were understood to have cast their lots with Col. Roosevelt.

During last night's hasty adjournment the organization found it necessary to begin at the foundation today. It had before it the drafts of the three platforms submitted by the Taft, Roosevelt and La Follette leaders, respectively, and there was an announced determination to give careful attention to the recommendations of all of them with the intention of cutting such portions as might commend themselves to their judgment. This was not an easy task in view of the length of the Roosevelt and La Follette documents and the expectation was that most of the day would be consumed by the deliberations of the subcommittee.

The Illinois, Maryland and Nebraska members of the full platform committee dropped in to say that though they belonged to the Roosevelt delegation they had no thought of ceasing their work in the committee. They were asked to sit with the subcommittee and accepted the invitation. Governor Hadley also appeared toward the close of the session, saying that other engagements had prevented his participation in the morning work.

Dr. Nicholas Murray Butler sat as a proxy for Mr. Murray, the New York member of the subcommittee.

Many of the planks of the proposed platform received attention and several of them were put in final shape for the consideration of the full committee.

Divided Over Tariff Plank.

A somewhat sharp difference of opinion has arisen among the members of the subcommittee on resolutions on the tariff plank. Two propositions are before the committee, one reiterating the declaration of 1908 in favor of a tariff which would cover the difference in the cost of production between this country and European nations, and the other providing for a tariff which would "maintain the American standard of living." The latter is pleaded by senator Livitt, of Rhode Island, and while it has received the favor of some of the members, has been opposed by others on the ground that it would be construed into a declaration in favor of a high tariff as opposed to any reduction.

BELLHOP SAYS DELEGATES ARE TIGHTWADS.

Somebody Forgot Himself and Contributed a Dime to Bellhop's Happiness; He Will Have It Framed.

Chicago, Ill., June 20.—Joseph Moehle, a "bellhop" who has the reputation of being an expert in drawing delegates from convention crowds, declared last night that the present gathering was the closest in his sixteen years' experience.

"I've attended every national convention for the last sixteen years, and I never found a closer one," he said. "When the delegates fight among themselves, the tip goes klicking."

"This year you can run your legs off and you're lucky to get a 'thank you' I'll bet I've carried enough ice water to the headmen to float a couple of ships, with small reward. Some one forgot himself yesterday and handed me a dime. I'm thinking of having it framed. Conventions at one time were the best in the land for picking up tips, but now there's nothing but big bills in sight. I guess the delegates don't bother with quarters and dimes. I'd rather be 'hopping' for a teachers' convention in a small burg."

CALIFORNIANS ARE READY TO BOLT

Chicago, Ill., June 20.—The California delegation met this morning and prepared a resolution to the effect that withdrawal from the convention. The delegates said they would not be bound by the action of a lot of thieves.

An effort to induce the Illinois delegates to join in a bolt continued till 2 o'clock this morning but failed.

The Illinois delegation this afternoon voted 56 to 2 not to follow a possible bolt.

GEN. E. S. BRAGG DYING AT FON DU LAC

Fond Du Lac, Wis., June 20.—Gen. Edward S. Bragg, commander of the famous Iron Brigade and former congressman, is said to be dying. He is reported to have given up hope.

Gen. Bragg served in diplomatic positions in Mexico, Cuba and China.

PARMALEE GIVES UP PLACE AND WILL GO TO FLORIDA.

Guaymas, Mex., June 20.—Norman W. Parmelee has severed his connection with the Guaymas branch of the Refineria del Pacifico at Fundicion, and has left for Miami, Florida, where he has purchased a considerable acreage in the Everglades. Mr. Parmelee intends to plant his land to sugar cane and citrus fruits.

D. S. Smith has returned to Guaymas after an absence of several weeks at Minas Prietas, where he made sales to about 20 of the mining men of Florida Everglades land.

J. E. Page, marine agent for the Southern Pacific Navigation company, with headquarters in Mazatlan, is in Ensenada, and his family are preparing to move to Mazatlan to make that city their permanent home.

CUMMINS DOES NOT LOOK FOR IOWANS TO BOLT

Washington, D. C., June 20.—Senator Cummins declared today he hoped there would be no bolt at the Chicago convention. He was in constant communication by telephone with his friends in Iowa, and he said he was not at all sure that the Iowa delegation will bolt.

WIRE TO STEWART TO STICK WITH ROOSEVELT

"In the name of decency, a square deal and Republicanism, stay with Roosevelt in or out of the convention."

This telegram, signed "El Paso County Republican," was sent Thursday to U. S. Stewart, who is representing El Paso at the national Republican convention in Chicago.

FOUR KILLED AND TWO SHOT IN TEXAS FEUD

Sherman, Texas, June 20.—In a feud between the Sharp and Waldrop families at Sperry's ranch, near here today, four persons were killed and two wounded.

Before she was slain, Miss Georgia Sharp killed one man and wounded another man and his wife.

Apparently both sides began firing simultaneously. Henry Waldrop killed Walter Sharp and his father. As they fell Miss Georgia Sharp seized her father's smoking shotgun rifle and took up the battle. She killed Russell Waldrop, the other Sharp parent.

Pronounced on the ground, Henry Waldrop returned the rifle fire and shot Miss Sharp. She died almost instantly.

Today's battle was the culmination of a long standing dispute between the two families.

DISPOSAL PLANT NOT UP TO THE CONTRACT DECLARES CITY COUNCIL

Surety Company Is Asked to Make the Contractor Remedy Alleged Defects.

Asserting that the Public Works Engineering company of Portland Ore., had failed to comply with the terms of a contract made with the city relative to the construction of the city sewage disposal plant, mayor C. E. Kelly at a meeting of the city council Thursday morning was authorized to send a letter to the American Surety company of New York, calling on that company to cause the engineering company to comply with the contract, or to do so themselves.

The city holds the bond of the surety company in the sum of \$20,000, taken as a guarantee that the company would do certain things, which the city council declared it has not, and now the city is asking the surety to make good.

There were two letters, one addressed to the New York and the other to the engineering company at Portland.

Detailed Statement Made.

The extent in which the engineering company failed to comply with the contract it had made with the city was set forth in separate detailed statements attached to the two letters.

In the statements it was stated the contract in this instance was made on March 7, 1919, and the company to secure the city for the construction and operation of the disposal plant furnished the \$20,000 bond dated September 22, 1919, the American Surety company of New York being the surety.

The city council declared that the plant had been in operation long enough to reveal the existence of grave defects, and that the contract had not in all respects been lived up to.

Some Alleged Defects.

Some of the defects set out were as follows: The provision to the effect that the effluent shall be clear, colorless, without odor, non-purrescible, and purified by bacterial action so that all germs should be practically removed. The lack of purification in this respect was said to be due to a number of causes, among which were included inadequate drains at the bottom of the filter beds, the inability of the sprinkler heads, the inability to maintain the rotary screens in running, like continuance of operation and others.

Furnace Not Satisfactory.

The furnace, which was agreed to be installed by the company, it was reported, would not perform its duty, that the residual from the furnace under the working load of 48 tons per day was not thoroughly burned and free from organic matter.

Some Things to Be Remedied.

Among the things which should be remedied before the plant is equal to the contract, suggested, were the following: Better and safer means of cleaning the coarser of the primary screens; doors for the pump room flow; improvements in hoisting apparatus for primary screens; opening to permit the fan to take in air from the screen room at all stages; improvements in the fan; some arrangement to effectually close the openings around the dampers; smoke flues so made as to prevent water from coming into them; weirs put in between sedimentation tank; by-pass around the heater.

It was stated that the city of El Paso had called the company's attention to these defects before but no reply had been received.

Makes Complaints in Writing.

As required by the bond given it was stated, the city now makes the objections and complaints in writing, and demands that the surety company comply with the contract.

The City's Health.

The following is the report of the health department for the week ending June 20: Number of deaths, 30; Americans, 20; Mexicans, 20; and negroes 2. The total number of births was given at 12, being one American and 11 Mexicans.

There are five cases of smallpox in the epidemic hospital. Four were dismissed last week.

In the heading of inspections were included: Meat markets, 298; fruit and vegetable wagons, 97; fruit and vegetable stands, 296; bakeries, 2; confectioneries, 2; 4 laundries, 321 premises; 122 restaurants; 95 milk wagons; 22 meat wagons, 15 slaughter houses, 142 dairies, 118 cattle; 32 calves, 36 hogs, 122 sheep.

The following articles were condemned: Meat, 1013 pounds; 54 pounds of fruit and vegetables.

The report of plumbing inspector M. P.

Petitions Granted.

The petition of John F. Dowling and others for construction of sidewalks on Wyoming and Lee streets was granted.

J. M. Friar was given permission to keep five head of horses at 10 East Overland street until they can be removed to a wagon yard which he proposes to start on Seventh street.

The petition of A. Mathies and Richard F. Burges for a sewer extension to block 6, Sixth street, was granted.

Petitions Denied.

The petition of the residents of the district in the vicinity of the Vilas school for the removal of some large advertising signs that have been erected on the east corner of the block at the school is located, was denied.

The signs are alleged to be on private property and for that reason the city could not order their removal unless they are profane or indecent.

Petitions Referred.

Asserting that Cebara street, between Alamogordo and Tularosa streets, had been entirely destroyed by the rain on the night of June 11, property owners and residents of Tularosa and Cebara streets petitioned the council to take steps for the protection of Cebara street from the flood waters. The matter was referred to the street and grades committee.

A request to grade and roll Willow street in the vicinity of Myrtle avenue was presented to the council by residents of Willow street. An an light to be placed at the intersection of Myrtle avenue and Willow street, was also included in the petition, which was turned over to the street and grades committee.

Mrs. R. A. Booth's petition for permission to construct two concrete steps on the sidewalk in front of the apartment house she is having erected at the intersection of Stanton and Wyoming streets, was turned over to the street and grades committee.

Citizens living in the vicinity of the Union station petitioned the council for adequate street lights. There were 20

Mills Building

"Not an Expensive Shop."

signers and the matter was referred to the fire and water committee.

Ask Opening of Oregon.

About 30 property owners on South Oregon street signed a petition for the opening of that street from Seventh street to the river.

The petitioners stated that this was an opportune time for the opening of the street, inasmuch as the building owned by W. W. Wiley, which at one time proved an obstruction, had been destroyed by fire. It was believed the ground could now be secured at a reasonable figure. The petition was referred to the street and grades committee.

The bond and application of the Oklahoma rooms for a hotel runner's license was referred to the finance committee.

North Kansas Work.

The report of city engineer Herbert Nunen on the improvement of North Kansas street, from Hill to High streets, was passed by the council in the form of a resolution adopting the report.

A hearing for the discussion of the proposed improvements by the property owners and those interested in the work will come up on August 8.

The bid of the Independent Electric company, amounting to \$495, to furnish labor and material and do the work at the Mesa pumping station was accepted.
